

ACS U-Clip™

Made with American Steel

The new ACS U-Clip™ is a **low cost cladding attachment solution** for commercial and residential construction. Composed of galvanized steel and utilizing the ACS Thermal Pad, the ACS U-Clip™ provides a balance between performance, ease of use and cost.

AVAILABLE SIZES

2" | 3" | 4" | 5" | 6" | 7" | 8"

Four Applications | One Clip

Vertical Angle
Penetrating the Insulation

Horizontal Angle
Penetrating the Insulation

Vertical Z-Girt
Outside the Insulation

Horizontal Z-Girt
Outside the Insulation

Adjustable: Save time and avoid shims with adjustability up to 1" in applications with penetrating angle.

Universal Application: The ACS U-Clip™ allows the flexibility to install girts horizontally or vertically, both inside and outside of the insulation.

Easy to Install: The ACS U-Clip™ can be installed anywhere on a plywood wall (does not need to hit a stud) when using the screws provided.

Installation Hardware Included: Simply select the appropriate screws for installation into wood, concrete, or steel stud —the selected screws are provided in the box.
